

To Whom It May Concern:

Scarlett was one of the most helpful TA's I've ever had for any class. Each week she came fully prepared, eager and excited to teach. She took it upon herself to make sure she knew every student in her section and develop a personal connection with each and everyone of them. I think what makes Scarlett stand out is that she actually cares about her students. I met up with her multiple times outside of class and she helped me go over my essays and study for exams. The activities we did in recitation were very helpful and very much prepared me for the exams. I got an A in the class and I contribute a large part of that to Scarlett's help and the skills she taught me.
